Arij Hajjaji

Software Engineer | .NET & Angular

Tunis, Tunisia arijhajjaji2@gmail.com +216 51592864 linkedin.com/in/arij-hajjaji github.com/Arijhajjaji22

Professional Summary

Software Engineer specializing in .NET and Angular, focused on designing and developing software solutions. Interested in artificial intelligence and emerging technologies. Open to professional opportunities across the IT field.

Experience

Full Stack Engineer (.NET & Angular), Hosinox Company January 2026 – June 2026

- Developed and extended an internal ERP dedicated to operational management, including the design of business modules, the development of secure backend APIs, and the creation of web interfaces with Angular.
- Improved the code structure, separation of concerns, and maintainability of the application by applying development best practices and integrating tests.
- Technologies: **.NET 8**, **C#**, **Angular 16**, **Entity Framework Core**, **SQL Server**, **SignalR**, **Redis**, **Docker**, **Git**, **GitHub Actions**, **Microsoft Azure**.

Final-Year Internship – .NET Developer, Innov-Alliance-Tech February 2024 – September 2024

- Designed and developed a web-based recruitment platform for managing applications and selection workflows, with a Blazor Server interface and real-time updates via SignalR.
- Contributed to setting up the DevOps environment with Docker, Jenkins, and unit tests to improve application quality.
- Technologies: **.NET 8**, **C#**, **Blazor Server**, **Entity Framework Core**, **ASP.NET Identity**, **SignalR**, **MySQL**, **xUnit**, **CI/CD (Jenkins, Docker, Nexus)**, **Monitoring (Grafana, Prometheus)**, **IIS**, **Git**

Education

Research Master's in SSD – Signals, Systems and Data, National Engineering School of Tunis (ENIT) 2026 – Present

Engineering Degree in Computer Science, Private Higher School of Engineering and Technology (ESPRIT) 2021 – 2024

Preparatory Cycle (MPSI), Free University of Tunis (ULT) 2020

Skills

Frameworks & Technologies: .NET (ASP.NET Core), Spring Boot, Angular, Blazor, Node.js

Programming Languages: C#, Java, JavaScript, TypeScript, Python

Databases: SQL Server, MySQL, PostgreSQL, MongoDB

DevOps & Cloud: Docker, CI/CD (GitHub Actions, Jenkins), Azure, SonarQube

Testing & Quality: xUnit, NUnit, Vitest

Tools & Collaboration: Git, GitHub, Swagger, Postman, Jira

Soft Skills: Problem solving, Teamwork, Adaptability

Projects

SchemaShift – Intelligent Database Migration *(In development)* 2026

- Designed an intelligent tool for analyzing and comparing database schemas to simplify migrations between

different DBMSs.

- Developed a table and column matching engine combining Machine Learning and semantic similarity, with generative AI assistance to explain differences and generate SQL scripts.
- Technologies: **.NET 8**, **C#**, **Angular**, **Python**, **FastAPI**, **Scikit-learn**, **LLM**, **SQL Server**, **PostgreSQL**, **Docker**.

AI Software Factory: AI-Assisted Full-Stack Application Generator 2026

- AI platform that turns a business idea into a full-stack application through a multi-agent workflow simulating a complete software development lifecycle (analysis, architecture, development, DevOps).
- Automated, incremental generation of project deliverables: user stories, software architecture, database, backend API, frontend interface, and CI/CD pipelines, with human validation at each step.
- Technologies: **.NET 8**, **Angular 19**, **C#**, **Azure OpenAI**, **Semantic Kernel**, **Azure**, **SQL Server**, **Docker**, **GitHub Actions**.

AI Code Assistant Pro – VS Code Plugin 2026

- Developed a VS Code extension that analyzes code in real time, detects bugs and vulnerabilities, and provides automatic fixes and intelligent refactoring.
- Integrated AI analysis via the Google Gemini API, structured AST parsing with Tree-sitter, vulnerability detection (Snyk API and OWASP Top 10), and an interactive WebView interface.
- Technologies: **Node.js**, **VS Code Extension API**, **Google Gemini API**, **Tree-sitter AST**, **Snyk API**, **OWASP Top 10**, **WebView HTML/CSS/JS**.

Languages and Certifications

Languages

Arabic: Native language

French: Fluent

English: Intermediate (B2)

Certifications

DevOps Engineer Training – Udemy

AI for Predictive Maintenance – ESPRIT

AI for Anomaly Detection – ESPRIT
